## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

\* The primary reasons for allowance for claims 1, 3-6, and 8-9 are the inclusion of the limitations of an inkjet recording apparatus and method comprising a mode change means for switching between a first operating mode and a second operating mode when it is determined that following the consumption of ink, the remaining amount of ink in the ink tank managed by a remaining amount management means has reached zero, wherein in the first operating mode a recording operation using the recording head is inhibited after the remaining amount managed by the remaining amount management means has reached zero, and wherein in the second operating mode continuance of the recording operation is enabled regardless of the remaining amount managed by the remaining amount management means, and wherein performance of the recording operation is instructed in the second operating mode, a control means sets the state of the connection to the host to the off-line state, and then permits the performance of the recording operation after the user manipulates the on-line switching means to change the state to the on-line state. It is these limitations, either alone or combined as claimed that have not been taught, found, or suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
